Flavour / Aroma	Typical / Fresh
Odour	No off / objectionable odours

Preparation Instructions:

Stove Top

Cooking Instructions

Serves: 4 persons

1. Rinse measured rice 1 to 2 times to remove extra starch, then drain.
2. Bring 500 mL (2 cups) of water to a vigorous boil in saucepan that has a tight fitting lid.
3. Add 250 mL (1 cup) of rice, stir and cover. Optional : add 5 mL (1 tsp) salt, 15 mL (1 tbsp) butter or margarine, squirt of lime juice.
4. Simmer 12 minutes without removing lid. Remove saucepan from heat and allow to stand, covered for 5 minutes. Fluff lightly and serve.

Stove Top (Alternate 10 MINUTE Method)

1. Rinse measured rice 1 to 2 times to remove extra starch, then drain.
2. Combine all ingredients (see chart below) in a saucepan (butter optional) and bring to a boil.
3. Reduce heat. Stir, cover, and let cook for 10 minutes.
4. Remove from heat. Serve and enjoy.

Ingredients	2 servings	4 servings
RICE	125 ml (½ cup)	250 ml (1 cup)
WATER	325 ml (1 1/3 cup)	500 ml (2 cups)
BUTTER (optional)	2 ml (½ tsp)	7 ml (1 ½ tsp)

Microwave

1. Rinse measured rice 1 to 2 times to remove extra starch, then drain.
2. Combine 250 mL (1 cup) rice and 500 mL (2 cups) water in a microwave-safe casserole dish. Optional: add 5 mL (1 tsp) salt, 15 mL (1 tbsp) butter or margarine, squirt of lime juice.
3. Cover and microwave on Med-High (75%power) for 10-12 minutes (adjust power or time as required).
4. Remove, fluff lightly, and let stand for 5-10 minutes. Serve.

Note: Due to variations in ovens, use above instructions as guidelines only.

Packaging: All packaging materials used are food grade, well formed, securely sealed and Lot coded.

Storage / Shelf Life:

This product must be stored in a clean, cool, dry place away from any strong odours. Like most grain products, it is subject to infestation by insects and other pests if not properly protected. This product is best if used within 12 months, with 6 months being ideal. It is advisable to rotate stock regularly.

Dainty Foods sells rice that has not been subjected to a post milling lethality step. Due to the non-random or heterogeneous distribution of microorganisms in dry material, such as rice, any test results are strictly limited to the samples analyzed. If the product is to be used in an untreated (raw) application it should be subject to an additional kill step or pretreatment to assure consistent quality and final product safety. Our responsibility for claims arising from breach of warranty, negligence, or otherwise, is limited to the purchase price of the material.

The information and data contained above is based on information believed to be reliable and is given without guarantee or representation as to results. Several factors and conditions of use may affect results, we therefore recommend that customers perform their own analysis before using in full-scale production and assume all risks of use.
